ORAL HEALTH AMERICA receives Charity Navigator's highest rating.

February 20, 2012, Chicago, IL— Charity Navigator, America's premier charity evaluator, has awarded Oral Health America its highest, coveted 4-star rating for sound fiscal management and commitment to accountability and transparency. Charity Navigator, whose goal is to provide donors with essential information needed to give them greater confidence in the charitable choices they make, highlights the work of efficient, ethical and open charities.

Charity Navigator's President and Chief Executive Officer stated that, "Receiving four out of a possible four stars indicates that (OHA) adheres to good governance and other best practices that minimize the chance of unethical activities and consistently executes its mission in a fiscally responsible way. Approximately a quarter of the charities evaluated have received the (CN) highest rating, indicating that Oral Health America outperforms most other charities in America. This "exceptional" designation from Charity Navigator differentiates Oral Health America from its peers and demonstrates to the public it is worthy of trust."

Beth Truett, OHA's President and CEO stated, "We've worked hard to make the necessary and fundamental changes here at Oral Health America to be able to demonstrate to our valuable donors that we are and have been effective stewards of their generous giving. We are honored to have earned this distinction."

Charity Navigator, America's leading independent charity evaluator, works to advance a more efficient and responsive philanthropic marketplace by evaluating the Financial Health and Accountability and Transparency of America's largest charities.
